

LINKVIL HT301/HT302 RJ9 Headset

Fanvil HT301/HT302 is a RJ9 headset which is specially designed for call center and office communication. HT301/HT302 supports passive noise reduction technology, offering an immersive HD audio experience. Streamlined ergonomic design, soft leather ear cushions and ultra-lightweight provide all-day comfort for you to wear. You can choose the HT301 mono headset or the HT302 dual headset according to your preference, both of which support connecting to Fanvil IP phones and third-party mainstream IP phones.

HT302 RJ9 Dual Headset

Highlights

- **HD Audio:** Support wideband HD audio and passive noise reduction, which is designed for the calling and music. It supports Anti Electromagnetic Frequency Interference and dynamic EQ function, providing more vivid and rich audio quality.
- **All-day Comfort:** Ergonomic design with soft leather ear cushions and ultra-lightweight. 260° bendable boom arm allows users to wear according to their preference.
- **Strong Compatibility:** Compatible with all Fanvil IP phones and the third-party mainstream IP phones.

HT301 RJ9 Mono Headset
